SAN FRANCISCO AGENT.
C. W. CRANE, 22 Montgomery street, is sole agent for the GAZETTE, authorized to contract and collect for advertisements. Advertisers are requested to send orders with Mr. CRANE, as no other agents will be recognized in San Francisco.

HOME RELATIONS NEEDED.—As a people we need more dancing and singing; more of that facility which can extract amusement from trifles. You absorb and self-wrapped astronomers, lawyers, or merchants may be very great men in their specialty, but their capacity for enjoyment is often below that of the poorest peasant. The great scientist, philosopher, statesman, or lawyer is often, too, the great O Me Miserium, because he has lost the faculty of kicking up his heels. He goes to parchment skin, knobs, and a stoop in the back, because he never kicks. Hundreds of our "influential citizens," learned men, and pillars of the church would now willingly give thousands if they could only feel the former boyish impulse to kick over an ash barrel or a fire goods box down a cellarway. Why? Too much intense application in one direction; too much mechanical work. We do not sufficiently value the principle implanted in our natures, and allowed to rust out from want of exercise, which in younger days led us to kick. For freshening body and brain keep up your kick, so that at the last you may kick the bucket with all the vigor of youth.—Graphic.

AMERICAN PRISQUE.—Statistics have been recently furnished in regard to the size and development of Americans which are of interest. They serve to dissipate a good many unfounded notions which have crept into the general mind and have obtained wide credence. These statistics were compiled from those taken in examining men for the army. Towards the close of the war, when the average age of soldiers was the highest, there were examined 19,102 men of whom 6,359 were native born, 580 Canadians, 454 Englishmen, 1,417 Irishmen, and 1,343 Germans. The mean height of the Americans was the greatest—5 feet 7.29 inches; of the Canadians, 5 feet 7.5 inches; of the Englishmen, 5 feet 6.3 inches; of the Irishmen, 5 feet 6.5 inches; of the Germans, 5 feet 5.9 inches. The difference between the Germans, who were the shortest, and the Americans, who were the tallest, was almost two inches—Philadelphia Ledger.

LOVE IN THE OLDEN TIME.—Chas. W. Elliott, in a lecture delivered in Boston lately, paid a glowing tribute to the women who, in the face of the numberless dangers which threatened the Puritans, dared to follow their lovers and take husbands into the trackless wilderness. They worked and suffered, thinking little of the luxuries which might have been theirs had they lingered on the other side of the water. They desired no "sphere," and were contented—day, happy—in knowing that they could comfort their husbands and help sustain the privations and hardships of a pioneer's life. At that time the men were the dandies and the women, dressed plainly. Marriage was brought about by contract, no spinster was allowed to live in the colony, and no man could make love to a woman without the consent of the parents.

NEW DOUBLE EAGLES.—A new double eagle is to be coined at the San Francisco Mint.

In the new dies the head of Liberty, which in the old ones was leaning to the right, is now perpendicular. The outlines of the face and hair are brought out more prominently, giving to the coin the appearance of being larger. On the reverse there were on the old issues the words at the bottom "TWENTY D." But now the denomination is expressed plainly, "TWENTY DOLLARS." In the scroll underneath the coat of Arms, the words "E PLURIBUS UNUM" are engraved much larger. Above the coat of Arms the upper row of stars is thrown up in the halo, and the oval disposition of the stars widened. There is no difference in the weight, size or fineness of the new piece.

Scene, Library. Freshman—"Where shall I find Darwin's works?" Librarian—"What do you want with Darwin?" Freshman—"I want his 'Origin of Species,' so as to find something about this finance question."—Cornell Era.

A little girl asked her mother; "What kind of a bear is a consecrated cross-eyed bear?" The mother replied that she had never heard of such an animal. The child insisted that they sang about it in the Sunday school. "No," said the mother. "It is a consecrated cross I bear."

The Brazilian, Dutch, and Spanish colonies of Ceylon, and other European colonies, have joined the postal union of the Portuguese colonies. Japan and the Argentine Republic have signified their desire to enter the Union.

Talmage's Tabernacle has twenty-five aisles, twenty-two doors, and eight stairways. Talmage doesn't propose to let his congregation be burned up in this world.

Homestead Lots!

Splendid Location!

Very Cheap!

Now is the time to Secure Them!

RENO EVENING GAZETTE.

RENO, WASHOE COUNTY, NEVADA.

WEDNESDAY, JANUARY 17, 1877.

The Reason Why.

The papers of California are discussing mining and mine management in a way which seems to them very conclusive. They grant that mining securities must fluctuate and yet blame the fortunate man who makes the deal. They grant that they know nothing in regard to the real value of mines and yet claim the privilege of buying at high figures and realizing profit. They purchase on chances and want managers to make their gain a certainty. When capital, generously invested, inflates values, they expect it to maintain these values in support of the few floating millions which find their way into the market.

Now any man that studies the stock market knows that gain is always accompanied by loss, and that there are always periods of unnatural depression. Indeed the market is manipulated so that it shall be sensitive to the slightest impulse.

The history of the New York share market, with Drew, Jay Gould, Fisk and Vanderbilt, as central figures, is but a counterpart of what is going on in our midst. We believe that positive dishonesty and intrigue are more unnecessary and unusual in San Francisco than in New York owing to the sensitive nature of the market. But men who have the millions control the market, and these cannot be moved without causing changes, in rates. Such changes will invariably swallow up the floating capital in the market, and it is time for merchants and ignorant adventurers in the stock marts to realize this fact. Do you make a business of operating in the stock market? Do you know why any stock should be worth the present quotations next week? Do you not recognize the folly of a hope which predicts thousands from an investment of hundreds, and is not that your sole reason for dabbling? We have spoken generally, and not in reference to the present market, but have tried to induce dabblers, and men who have no business to chance their earnings, to argue the matter and learn the reason why they are unsuccessful.

Austin's Incorporation Act.

We find the following economical points in a review of Austin's incorporation act which is said to work very satisfactorily.

The Mayor and Council serve without fee; the marshal, who is also fire warden and tax-collector, receives not to exceed \$1,800 a year; the entire police force cannot receive more than \$3,000 a year; the other officers each receive a mere pittance, not enough to make it a "job" but sufficient there being not much to do—to secure the leisure hours of a business man. The Council cannot levy an annual tax of more than one-half of one per cent, and their power to levy and collect licences is limited to most trifling amounts. No expense can be incurred from the draining or grading of the streets except upon a petition of three-fourths of the property to be benefited and therefore to be taxed for the improvement. Under this charter Austin is the cleanest, quietest best behaved town in Nevada, and there is no reason why Eureka should not profit by her example. We hope the gentlemen who have the matter in charge will draft a good bill, and that it will then be submitted to the people, and if passed upon favorably by them will be enacted into a law.

Acting upon these principles and seeking the greatest economy, might it not be well to take advantage of the three general laws made for the benefit of unincorporated towns? An amendment to the Fire, Police and Road laws, which are general, might serve us instead of incorporation should we find that expensive. These amendments would make the Chief of Fire Department Fire Warden; Constable Town Marshall, and the Chairman of the Board of County Commissioners, ex officio Street Inspector. We merely suggest these matters for consideration.

A San Jose, Cal., telegram says: On Saturday evening about 5 o'clock, at Los Gatos, Santa Clara county, Charles Parr was shot and killed by a Mexican named Bruno Uyao. The row was brought about by three Mexicans riding ahead of Parr and a man named Johnson, and throwing dust in their faces. The Americans began the attack, and Parr was killed by a ball from Uyao's pistol at a distance of 40 yards. Uyao is in the county jail.

A Visit to the State Mint.

While at Carson we thought to while away an hour or two, that, although ourselves not possessed of a sufficient amount of coin to tempt a tramp to investigate our pockets, we would step into the money manufactory. So after the adjournment of the Legislature for the day, in company with Senator Ross we brought up at the Mint. We found many things of interest and acquainted ourselves with information which we believe may be of some interest also to our readers, and will therefore in an informal way state what we there saw. G. R. Dobb, the gentlemanly conductor, took immediate possession of us. We made our mark and were escorted first into the

DEPOSIT ROOM.

Here a chip is taken from diametrically opposite corners of the bullion, assayed to find out its value and what amount to pay the depositor. Thence we go to the Refinery, where the crude bullion is melted and boiled in large iron kettles with sulphuric acid for some six hours. The silver is dissolved and the gold sinks to the bottom. The gold is then washed with hot water and melted into shoe bars, value \$8,000. The silver which we left as a solution of silver sulphate is removed from the large iron kettles into smaller ones and again boiled. It is now removed to a large vat, on the bottom of which are a number of copper bars. The sulphuric acid having a greater affinity for copper than it has for silver, unites with the copper and leaves the silver free. The

SILVER

is now put in large filters and washed with hot water and pressed under hydraulic pressure into large cheese-like cakes, value about \$350. The washed gold is not pressed. The silver cake is dried in a furnace and then melted into shoe bars, the value of which bar is \$250. The gold and silver shoe bars are broken into three separate pieces and each melted with ten per cent. of copper. A small quantity of the first and last dip is dropped while in a molten condition into water and the granulated particles assayed. If the proper percentage of copper has been added, the melted gold and silver are separately moulded in long bars called

INGOTS.

These ingots are then rolled into long slips, cut in two and annealed half an hour in copper canisters. The annealing is done to make them soft; before this they are like steel strips. The gold strips are greased with beeswax and the silver ones with tallow. To grease the slip in other Mints requires the services of one man, but Charles Meader, one of the employees, has invented a small attachment to the draw bench, whereby the bars are greased as they pass through the draw. The draw bench makes the bars of uniform size in width and thickness. Then comes the cutting machine which cuts out the

BLANKS.

Five of these blanks are weighed and if of proper weight all the blanks are then washed, to free from grease, then milled. The silver blanks are then whitened in a furnace at read heat for about fifteen minutes. The gold blanks are whitened in air tight iron boxes. Should the air be admitted they would blacken. The silver blanks are then washed in hot dilute sulphuric acid. The gold ones are washed in hot dilute nitric acid. The gold blanks are also adjusted i. e. weighed and filed, if too heavy, in the adjusting room before they are milled. Both blanks are steam dried in Basswood sawdust. Then they are stamped, sent to the adjusting room and adjusted, then put in sacks, weighed and put in boxes for shipment. The boxes containing silver hold \$2,000.

Such in brief is a description of the whole process, a process as interesting to inspect, as the workmen are particular in every detail of the operation.

The contest between Pacheco and Wigginton for a Congressional seat from the 4th District in California is still before the Supreme Court. The whole squabble is about one vote.

A sailor named M. Kelly was fatally stabbed by his love's paramour night before last in San Francisco.

Just at present Virginia and Gold Hill are as quiet and virtuous as two New England villages.

Incorporation.

The town of Eureka is now laboring with the incorporation question, and the Eureka Republican gives some excellent reasons for the passage of a bill. These apply so nicely to Reno that we reproduce them:

We have no efficient fire organization. Our gallant firemen who have time and again saved our property holders from a disastrous conflagration, depend almost exclusively upon voluntary contributions and upon their own pockets for the means of defraying necessary expenses. This cannot last forever, and we may, some day, if we go on as now, find ourselves in our need without any fire company to save us from destruction.

Our streets are ungraded, undrained and uncleaned. They are the receptacles for all kind of refuse, and refuse soon becomes filth. Under existing circumstances neither grading, drainage nor cleanliness can be accomplished save in a most unsatisfactory manner, and then only by voluntary contributions.

The Chinese Colony is located in the heart of the town, on a street that but for their presence would be the most desirable for residences and for certain classes of business that are here in our limits. Nearly one-half of our people have to pass through the Chinese quarter, with all its accompaniments of filth and obscenity, to reach their places of business or to visit their friends on the other side of town; and the school children have to traverse it two or three times a day.

All these, and many other existing evils which we have not space to enumerate, could be obviated, provided we had a city charter; a charter which would enable us to protect ourselves against fire; to properly grade, drain, and clean our streets; and force the Chinese to establish their "Chinatown," with all its vice and nastiness, in some out of the way locality, where our people will not have its offensiveness continually thrust under their eyes and noses.

We have, besides these, other nuisances to abate, among which come our dance houses and others of that ilk, which it would at least be advisable to remove to the back streets and away from the business portion of town. None of these matters can be controlled without incorporation, and it should be the part of every good citizen to help compile a practical, economical act, by which these desirable ends may be served.

James Graham was seen by two officers a few days ago. They gave him a lively chase up Six Mile Canyon, fired at him to let him know they had pistols, puffed like a couple of snow-bound locomotives, and retired to their homes while Graham returned to his mountain retreat.

Rain is reported from all quarters of California, and farmers are much improved in spirits.

Change of Time.

Jottings.

The first sleigh appeared to-day.

The rancher is now occupied in sitting by the fire and guessing how the coming season will affect the hay crop, and wondering whether the old white cow will stand the winter.

We heard to-day of a machine attached to power presses which folds a twenty-four page paper, puts on the cover, and pastes and trims the book, and now our devil swears that before spring he'll invent a small job press to carry them.

The bridge bill prepared last night by the Board of Trade will be forwarded to our representatives.

You can't always tell when winter has come for the cats who mewed on your front porch all summer, now live under the house and assist you to enjoy the evenings.

In the District Court to-day the case of Shoemaker & Haydon vs. A. J. Hatch came up for trial by the Court. The cause of action is a dispute in reference to certain meandering lines along the Truckee river.

There is quite a family of prisoners in the county jail. Twelve unfortunate receive attention from the Sheriff.

Hon. J. S. Shoemaker was in town to-day. He reports legislative matters progressing slowly, and thinks there will be a fight over the State Prison appropriation, but speaks encouragingly for the interests of the State, viz: that the prison will be removed to Washoe county.

We noticed a little fellow to-day with his sled attached to a butcher wagon. He had no hit to slide down and must have a sleigh ride. We watched him for several minutes and then resumed our way, silently wishing that we were a boy again, to become oblivious to life's responsibilities, and the participator in unalloyed pleasure.

DETENTION.—The western bound lightning express was detained seven or eight hours last night between here and Truckee. Engine 180 became disabled, and engine 190 which came down from Truckee ran off the track. Our old standby No. 48 rolled out at 4:30 and hauled the poor fellows up to Truckee, from which place the train made good time to Vallego.

SINKING.—Flynn is unconscious to-day. Last night a Catholic priest was with him nearly all night, and visited him twice to-day. The Peritoneal inflammation is increasing, and his demise is only a question of time.

THE STORM.—The weather clerk has been rather fooling away his time to-day. The snow was too fine for sleighing purposes, but from the way he perseveres the sleighbells may be ringing yet.

FOR SALE.—Either of two choice building lots, each 50x140 and well situated. Lots are on 4th street near West, and cleared ready for buildings. For particulars apply at this office.

BOARD OF TRADE.—The Board met last evening according to announcement, and a quorum being present the bill authorizing our commissioners to build a bridge was taken up and discussed. The bill as approved provides that the Commissioners shall issue not more than \$20,000 in bonds not bearing over 10 per cent. interest; \$1,000 of which bonds shall become payable each year. They are also empowered to set aside a portion of the tax of each year sufficient to meet such principal and interest when due. The bridge is to have a double track, sidewalks on each side, and may be built of wood or iron, within the discretion of the Commissioners. The bill was prepared by Messrs. Knox and Beck and we think is a good one in all respects. According to previous notice Mr. Hatch moved a reconsideration of the vote, by which the question of incorporation was indefinitely postponed. The motion to reconsider carried and the further discussion was then postponed until next Saturday evening. On motion, a committee was appointed to revise the old bill and report the best manner of reaching a general expression on the main question. On motion, the meeting adjourned to Saturday night next, at which time everybody should be on hand.

Gold Hill has more pretty girls than Virginia.—Gold Hill News. Great goodness! What a libel on our maidens!—Enterprise. True nevertheless. Queer that two newspapers should enjoy repartee over such homely girls as Virginia City and Gold Hill contain. There are girls up there who do not enjoy good health because they lose so much sleep at night on account of facial pains. We saw one who resembled a sugar coated ham struck by chain lightning. Reno, don't boast a large stock of adolescent femininity, but her female property command the highest market prices.

SPECULATIVE GANTZ.—The bold Gantz, who entered into the house speculation business on the corner of Virginia and Second street has a card placed near the door saying that he will not open his Hotel right away. Sheriff Lamb kindly put up the card for Gantz as the latter was not feeling very well. To-day a quantity of comforters and pillow-cases which the remarkable Gantz forgot to pay Mr. J. Prescott for, were sold at auction by Deputy-Sheriff C. W. Jones Gantz is in Carson taking in the Legislative proceedings and doing his best to drive the cares of life away.

INSANE.—This evening Judge S. H. Wright and several physicians will examine the Simpson Bros. as to their mental condition. Both are strong, healthy men; one is short and stout built, the other tall and of average weight. They appear to be about 30 and 35 years of age respectively. They recently sent some \$300 to their parents in the East. The peculiarity of their case seems to be that they think some one is after them who seeks to take their life. Hence they want to go to the States and live with their parents.

Stocks were off again yesterday. The "shorts" don't squeal for they want a little more of the freeze out business, and seem to totally disregard the immense amount of suffering they produce among thousands of the people of the Pacific coast. It seems very probable that the market has about reached the bed rock, and if the stockholders have no margins to make up and will hold their scrip they will come out all right. A healthy stock market and plenty of rain and snow and everybody will be in the best of spirits.

I shall commence suit on delinquent Taxes on Thursday, January 18, 1877. Delinquents will please settle with the County Auditor before that day and save costs. WILLIAM GALT, District Attorney.

Serious charges are made against Kelly & Hofer, the "busted" Carson stockbrokers. Many are financially ruined. The firm are said to have failed for near \$400,000.

POSTPONEMENT.—The Cleopatra delinquent sale has been postponed until Wednesday, Feb. 13th, 1877.

LOST.—Last Tuesday morning an embroidered brown pocket-book, containing notices about the California cities was lost between the International and Depot Hotels. A suitable reward will be given to the one who finding the above book shall leave it at the International Hotel.

WANTS WORK.—An engineer from Virginia City is now stopping at the Pollard House. He is a man of family and is anxious to get honorable employment of any kind.

STILL ON TOP.—Hurrah for the Centennial. Nick wants the public to know that all danger has been removed. That no man who shaves at the Centennial need fear for his throat. No danger of having your hair poorly cut or losing a piece of your cheek at this shop, on account of a poor light; and why? Yes, why? Well, Nick, in order to keep ahead and have all modern improvements, has introduced gas into his shop and you would hardly know the place. Step around gent, opposite Norton's butcher shop, and get shaved, and come easily, for there are always two crowds around. One comes to get shaved and the other to admire the shop by gaslight.

LOST.—A fur collar belonging to Mrs. J. E. Jones was lost at Dyer's Hall last Friday Evening. The finder will be suitably rewarded by leaving the same at Mr. Jones' residence or at this office.

AGENT.—W. J. Marsh has been authorized by the well known musical firm of Sherman & Hyde, to effect sales for all their instruments on any terms given at their house, including the Weber, Sherman & Hyde and Cottage Gem Pianos, and Standard Organs. He will sell any of these instruments on such easy installments that everybody can buy with a little effort.

HONEY LAKE APPLES.—J. N. Jaquith has now on hand 300 boxes of the celebrated Honey Lake apples. The established reputation of this fruit is entirely sufficient to warrant its quality. For sale by the box cheap for cash. J. N. JAQUITH, Commercial Row.

SILVER-PLATED WARE.—S. N. Davidson announces that he will sell during the Holidays quadruple silver-plated Napkin Rings, of Rogers' make, with initials engraved thereon, for 25 cents, largest size, 30 cents. Silver thimbles with initials engraved, 25 cents, and all other goods in proportion.

Choice dairy cattle for sale, cheap for cash. Apply at this office.

Boots and Shoes made and repaired at John Sunderland's.

For a first class Custom made Boot or shoe, go to John Sunderland's, on Virginia street.

SHAVING PARLORS.—Messrs. Morris & Frankfield take this method of announcing to their friends and the public in general, that they have opened a new and elegant hair dressing room, on Virginia street, fronting Bidden's photograph gallery. Everything is new, neat and clean, including the very latest improved Rochester Barber Chair, the only ones to be found in Reno. Everything necessary to be had to insure the comfort and pleasure of customers have been provided. Shaving, Hair Cutting, Shampooing and Dyeing done in a practical and workmanlike manner. All kinds of Hair Tonic and Hair Restoratives always on hand. Ladies and children's hair cutting and shampooing a specialty. MARK H. MORRIS, H. H. FRANKFIELD.

NEW STORE.—Yankee Dodge is again to the front. He is well aware of the hard times and knows that Reno wants goods sold at the lowest rates and for cash. Hence Dodge has opened a store next door to Pollard's Hotel, on Commercial Row, where he will keep on hand a general variety of Yankee notions, such as Soap, Perumery, Hose, Ladies and Gents Underwear, Towels, and Counterpanes, Buggy Shoes, Horse Blankets, Whips, etc., etc. He has a well assorted stock of Goods which he will sell cheaper than anybody. Call and examine them.

James Toombs extends this public invitation to all debtors who are in his debt prior to August 1876, to call at Toombs & Co. and settle their accounts before the 15th of Dec. as he will, at that time, place said accounts in the hands of an attorney for collection. Call with coin, gentlemen, and save costs of suit.

ON MOST LIBERAL TERMS.

Mr. Black, who edited the London Chronicle, used to boast that he could read off at sight one of his own or anybody else's leaders in that language. Black was a Scotchman by birth, and made his way to London on foot with a few pence in his pocket to try his fortune living by the way on the hospitality of fathers. At an interview with Lord Melbourne, the Prime Minister expressed his surprise that though they met frequently in confidential intercourse, Black had never asked him for a place, adding, "There is no man living to whom I would sooner give a place than yourself." "I thank you, my lord," said Black, with the utmost simplicity and composure, "but I do not want a place. I am editor of the Morning Chronicle, and like my work and the influence it gives me, and do not desire to change places with anybody in the world—not even with your lordship." "Mr. Black," said Lord Melbourne, shaking hands with him warmly, "I envy you—and you are the only man I ever did."

Application for a Patent.
UNITED STATES LAND OFFICE,
CARSON CITY, NEVADA.
NOTICE IS HEREBY GIVEN THAT Benjamin F. Leete and Charles H. Van Gorder, the owners of 1,380 acres of land situated in Churchill county, State of Nevada, containing valuable deposits of salt, and known as the "Eagle Salt Works," and whose Post-office address is at Reno, Washoe county, Nevada, have made application for a patent of the United States, under the laws concerning mineral lands, for said 1,380 acres of saline lands, or lands having thereon valuable deposits of salt, the said tract being described upon the official plat and field notes on file in my office at Carson City, Nevada, and posted upon the said tract and claim as follows: A well beginning at post marked U. S. Survey No. 37, Station No. 1. From this point the section corner common to sections 35, 36, 37 and 38, thence 35 chains, second course, south 160 chains to post marked U. S. Survey No. 37, Station No. 3; thence running, third course, north 30 chains to post marked U. S. Survey No. 37, Station No. 4; thence running, fourth course, west, crossing the C. P. R. R. at 18 chains, 40 chains to post marked U. S. Survey No. 37, Station No. 5; thence running, fifth course, south, crossing C. P. R. R. at 38 chains, 60 chains to post marked U. S. Survey No. 37, Station No. 6; thence running, sixth course, south, crossing C. P. R. R. at 38 chains, 60 chains to post marked U. S. Survey No. 37, Station No. 7; thence running, seventh course, south 60 chains to post marked U. S. Survey No. 37, Station No. 8; thence running, eighth course, east 12 chains to post marked U. S. Survey No. 37, Station No. 9; thence running, ninth course, north 40 chains to post marked U. S. Survey No. 37, Station No. 10; and thence, tenth course, east 40 chains to post No. 1, the place of beginning.
Containing 1,380 acres. Bearings expressed from the true meridian with a magnetic variation of 17 degrees and 30 minutes east. Said claim is bounded by the section corner in the northwest 1/4 of section 35, and the south 1/4 of section 36, the southeast 1/4 of section 37, and the north 1/4 of section 38, and the north 1/4 of section 39, and the north 1/4 of section 40, and the north 1/4 of section 41, and the north 1/4 of section 42, and the north 1/4 of section 43, and the north 1/4 of section 44, and the north 1/4 of section 45, and the north 1/4 of section 46, and the north 1/4 of section 47, and the north 1/4 of section 48, and the north 1/4 of section 49, and the north 1/4 of section 50, and the north 1/4 of
